

Dear Guests!!

We are very pleased to welcome you again!

Due to the current Corona regulation in Baden Württemberg we can only welcome you if you meet one of the following conditions:

Vaccinated - Fully vaccinated means 2 vaccinations, where the 2nd vaccination must be at least 14 days ago. If you have been vaccinated by Johnson & Johnson, 1 dose is sufficient. The vaccination must be proven with the vaccination certificate.

recovered - As proof of your infection you need a positive PCR test at least 28 days and max. 6 months ago.

tested - All persons who are not vaccinated or recovered need a certificate of a negative test not older than 24 hours at the check-in. You will need another test after every 3 days of stay. Please show the proof of a negative test at our reception.

You can also take a test when you arrive in Freiburg. It is recommended that you book an appointment in advance at a test station, e.g. via the website

<https://freiburgtestet.de/>

Please note that you first take the test and only then come to the hotel and bring the proof with you.

You will not be allowed to check in with us without proof.

Our front desk is not always staffed. If you check in during this time, come to the front desk the next morning so we can check the proof. You can also find more information about Corona on our WebSite <https://www.hotel-barbara.de/download>

Please also make sure that there are no symptoms of a possible Covid-19 infection (e.g. shortness of breath, cough, fever, etc.).

We wish you a pleasant journey and are looking forward to seeing you!

Your team from Hotel Barbara
